The International Climate Initiative (IKI)

- Since **2008**, the IKI has been financing **climate and biodiversity** projects in developing, emerging, and transition countries.
- More than **1,000 projects** with a current funding volume of almost **€7.5 billion**.
- Since **2022**, the IKI has been implemented by **three ministries**.
- **Project selection** mainly in ideas competitions for various types of funding.
- **IKI Strategy 2030** focusses funding on the **14 IKI priority countries**.

Mitigation of greenhouse gas emissions

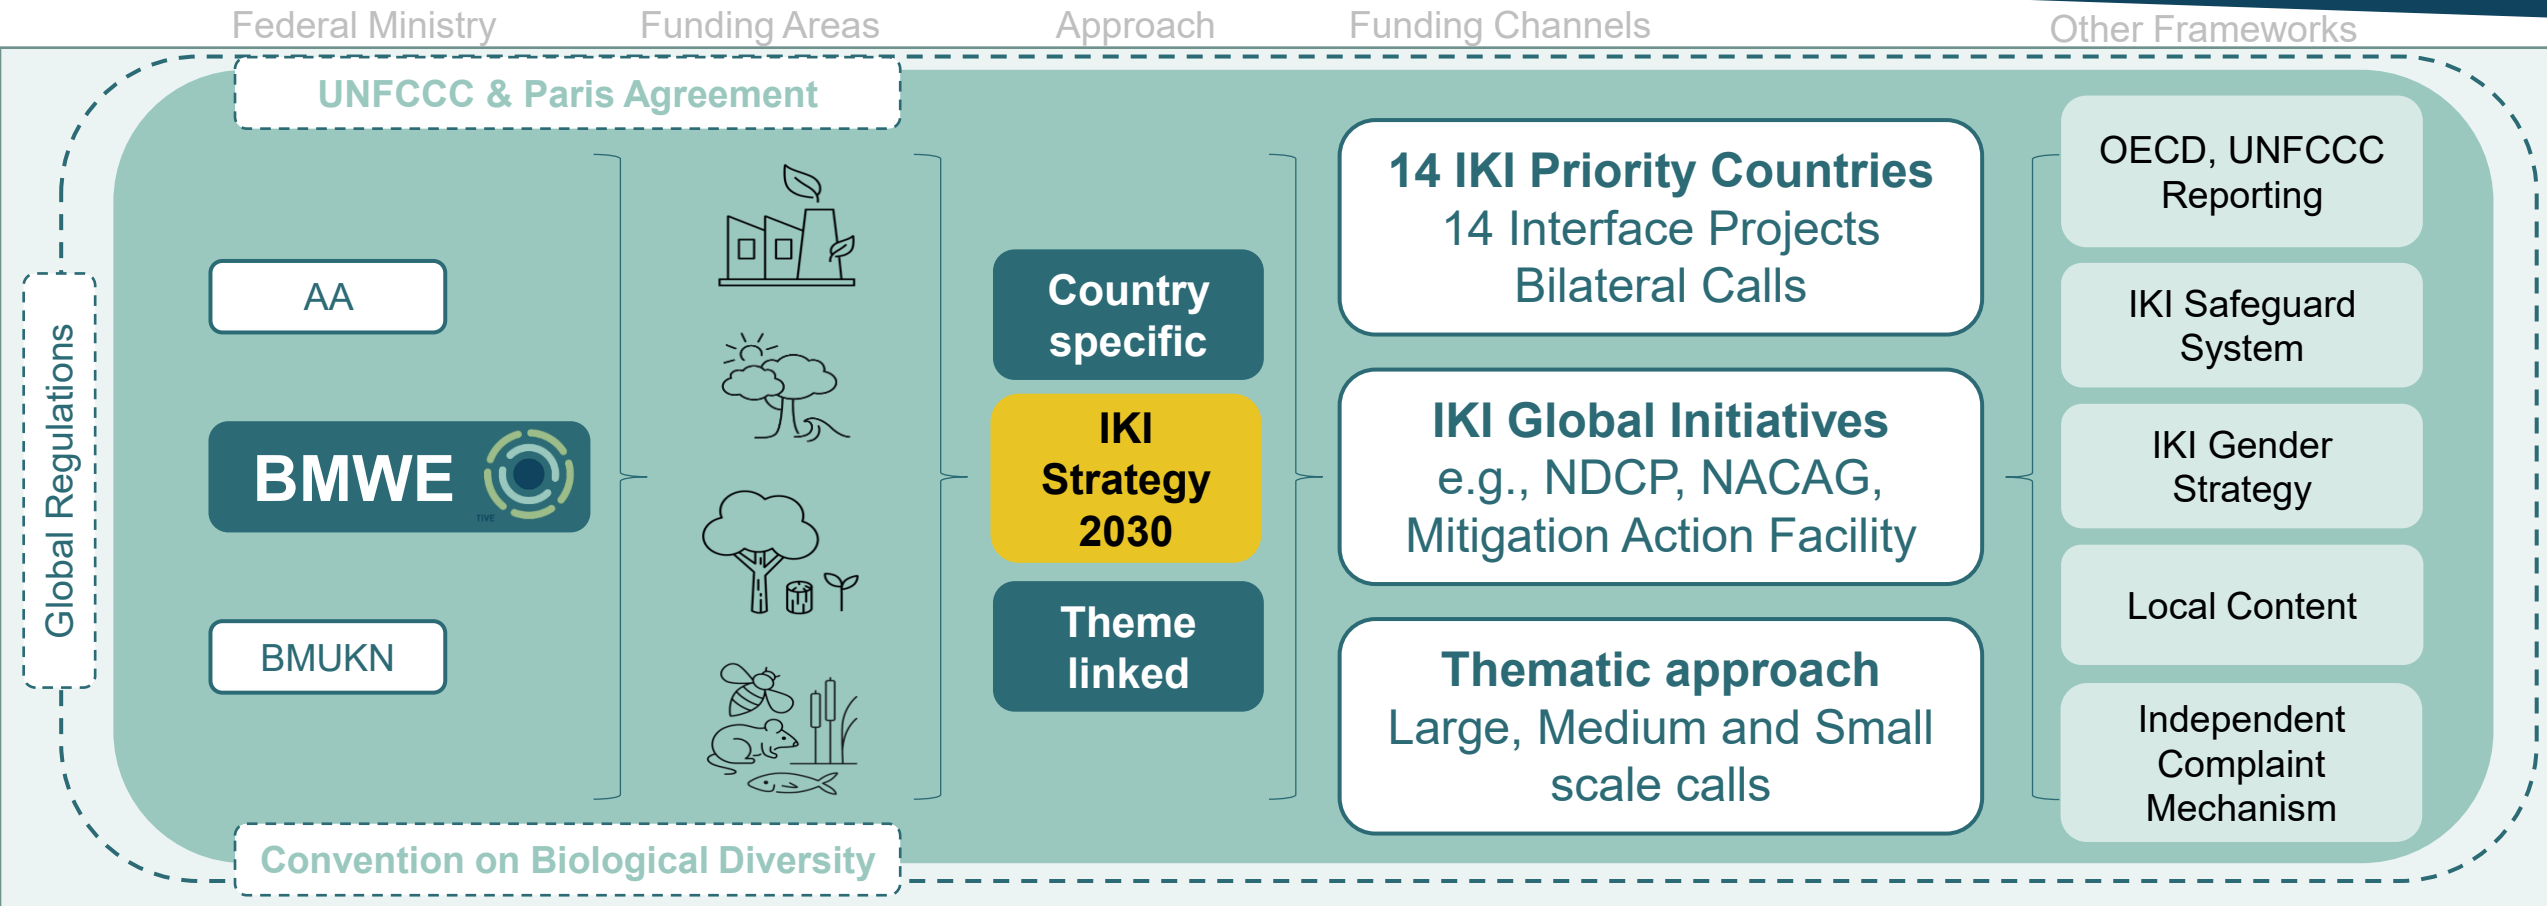

Adaptation to the impacts of climate change

Conservation of biodiversity

Conservation of natural carbon sinks
Focus on reducing emissions from deforestation and forest degradation (REDD+)

Mitigation Action Facility

Leading the way in transformative climate action

- **Vision**: Accelerate decarbonisation to keep temperature rise to below 1.5°C.
- **Priority sectors**: energy, transport and industry.
- **History**: Evolved in 2023 after 10 years of implementation as the NAMA Facility
- **Value proposition**: An agile, high-impact and country-driven fund, that supports scalable, replicable sector-wide solutions in partner countries towards sustainable carbon-neutral pathways.
- **Funding**: Grant-based programme for technical support and climate finance to promote upscaling of innovative mitigation measures, selected in annual calls
- **Funding partners**: Germany, UK, Denmark, EU, CIFF
- **Website**: www.mitigation-action.org

Building on a decade of experience from the NAMA Facility (2013 – 2022), the MAF is taking the legacy forward:

835 Million €
committed

1.8 Billion € leveraged

60 projects supported

28.1 Million people

The IKI strategy up to 2030

- Defines how the IKI will contribute to overcoming the climate and biodiversity crises in developing and emerging countries up to 2030.
- Defines the IKI targets to be reached by the year 2030.
- Provides focus as well as flexibility for maximum impact.
- Allows for strategic steering of the funding program.
